

CONTINENTAL UNDERWRITERS

**More than 40 years
of building relationships.**

Continental Underwriters was founded in 1971 to provide companies, both large and small, the insurance coverage they require. Since then, we have built long lasting relationships by consistently supporting our clients in all of their endeavors. As they've grown, so have we, continually expanding our capabilities from marine and excess liability to inland marine and ocean cargo - all to propel their business forward.

EXPERIENCE

Few companies have been in business for over 40 years. Even fewer have the depth of experience that Continental Underwriters has. We put that experience to work every day and night to develop custom insurance solutions that fit our clients' very specific needs.

DEPENDABILITY

You don't stay in business for over four decades by making empty promises. You stay in business by delivering the right coverage at a fair price and staying true to your word no matter what. That's how we do business. That's how we've stayed in business.

COMMITMENT

We constantly show our commitment to our clients by delivering custom insurance solutions. In return, our clients have shown their commitment to us. Our average client relationship exceeds 15 years - a number that's unrivaled by our peers.

CUSTOMIZED COVERAGE

With our broad range of coverage options, we can design policies for even the most unusual and volatile risks. So whether your needs are fairly straightforward or you require more complex insurance solutions, we will design specific policies for your business.

MARINE LOSS CONTROL ADVISORY SERVICES

We have nationwide resources to assist clients and adjust claims with precision as well as resources that minimize the disruption and financial impact of losses on our clients' businesses. Our Loss Control Specialists can work with you to assist in developing a program to control claims and costs. We take pride in handling claims efficiently. To submit a claim, email us at claims@cultd.com.
